Review and Discussion of Continuing Education Audit Statistics

The committee reviewed continuing education audit charts that were provided in the meeting materials.

Mr. Puleo explained that the chart gives a breakdown of July-November licensee audits and how many were not in compliance with the continuing education requirements.

Each month licensees are randomly selected for an audit of their continuing education yearly requirement.

Dr. Dehn asked that the staff to continue to provide continuing education statistics for the committee to review at future meetings.

Mr. Puleo stated that 20-35% are not in compliance each month with completing the continuing education requirements. This could consist of licensees who are short a few hours or did not complete the mandatory subjects.

Mr. Puleo mentioned there is no fine issued to licensees who do not pass the audit. They are given a warning and must complete the required hours of continuing education in a timely manner or their license can be suspended.

Update Regarding CE Provider Qualification Focus Group

Dr. Dehn gave a brief summary of the last CE Provider Qualification Focus Group that was held in Northern California on November 5th, 2016. She mentioned the turnout was very successful but for future focus groups there needs to be instructions on what to expect.

Dr. Dehn stated that the goal for the next CE provider qualification focus group, which will be held in Southern California on February 12th, 2016, is to get more suggestions from CE providers on possible changes to the CE regulations.

Mr. Puleo mentioned that an agenda will be distributed for the next focus group to help prepare the CE providers. Instructions will be given at the beginning of the meeting so that the CE providers understand their role and what is expected from them.

Mr. Puleo inquired about the number of attendees expected at the southern California CE provider focus group. Ms. Lauziere stated that she has received responses from 15 attendees.

Dr. Dehn asked when the agenda will be prepared.

Mr. Puleo stated that the agenda will be email blasted to our online subscribers and posted to the Board's website by February 2nd, 2016.

Dr. Lichtman asked if there were any minutes from the last focus group.

Mr. Puleo will send minutes to each committee member for review; however, he does not want to publicly post any minutes until both focus groups have been completed.

Mr. Puleo stated that the purpose of these focus groups are to bring CE providers together and brainstorm ideas about possible changes to our regulations. The committee and Board will discuss the ideas that were shared for possible regulation changes.

Dr. Dehn stated there will be more committee meetings open to the public to discuss possible changes to the regulations.

Mr. Puleo suggested that if a CE provider cannot attend the focus group they can send someone on their behalf.

Dr. Dehn mentioned the Board does allow a period of time for the public to submit comments, suggestions and questions when the rulemaking process begins.

Mr. Puleo stated that if the public has any questions about the current continuing education requirements, they may contact our continuing education analyst, Genie Mitsuhashi, at genie.mitsuhashi@dca.ca.gov.

Dr. Dehn requested to receive the agenda for the upcoming focus group in Southern California on February 12th, 2016 for approval.

Review and Discussion Regarding Proposed Outreach Publications

The committee reviewed the Winter/Spring 2016 Newsletter. They pointed out that the message from the Board "President" should have been labeled from the Chair.

Dr. Dehn asked if the Board still needed subject matter experts (SME) for the upcoming occupational analysis that was mentioned in the newsletter.

Mr. Puleo stated we are holding an occupational analysis to make sure the scope of practice is accurately representing the profession and practice.

Dr. Dehn asked the committee members to continue to reach out to their colleagues and other licensees who may be interested in helping the Board serve as SME's and to contact Brianna Lauziere at Brianna.lauziere@dca.ca.gov or by telephone 916-263-5355 ext 5373 with questions.

Dr. Lichtman asked whether a Board member could participate as an SME for the occupational analyst.

Mr. Puleo will review the participation requirements for this particular subject matter expert workshop and report back to the committee.

Mr. Puleo announced that the Newsletter is now available on the Board's website and hard copies are available upon request.

The committee reviewed the Licensee Guide.

Ms. Lauziere shared that there were options for the cover photo and subtitles.

The committee preferred the subtitle, "Getting Licensed and Staying Licensed" rather than "Prospective Licensees/Licensure".

The committee also selected the photo of the young woman hanging her chiropractic license on the wall, as it relates to the Board's licensure posting requirements.

Dr. Dehn had a brief discussion about the section that pertains to common violations that could result in disciplinary action.

The committee decided it was important to list DUI under conviction of a crime for clarification. The committee also decided to elaborate on the sexual misconduct bracket by adding, "a relationship with patient or employee".

Dr. Dehn asked for changes to be made so that the brochure can be reviewed by the full Board at the next Board meeting.

Mr. Puleo suggested that the committee vote on moving forward with the changes suggested in today's meeting and present the final publication to the full Board at the next Public Board meeting, January 28, 2016.

MOTION: DR. DEHN MOVED TO APPROVE THE CHANGES IN THE LICENSEES GUIDE AND PRESENT TO THE BOARD AT THE NEXT PUBLIC BOARD MEETING.

SECOND: DR. ROZA SECONDED THE MOTION

VOTE: 3-0 (DR. DEHN – AYE, DR. ROZA – AYE, DR. LIGHTMAN – AYE)

**Board of Chiropractic Examiners
Continuing Education Provider Stakeholder Meeting Notes
Sacramento, CA – November 5, 2015
Southern California - February 12, 2015**

INSTRUCTOR CREDENTIALS – November 5, 2015

1. Subject specific/dependent
2. Don't have to be a D.C. (i.e.: Ph.D. in Nutrition)
 - Expertise in a given area is more favorable to requiring a specific degree
3. Consider years of experience instructing/work practice.
4. Establish a minimum requirement of expertise (Market driven)
5. Self-evaluation/continuous improvement
6. Create a few new standards for the application form (a list will be generated by Dr. Barry)
7. Evaluation form should be sent to the Board by learners; instructor should be pulled
8. If one can't qualify to teach at a school then they shouldn't be teaching on their own
9. Board could survey stakeholders to find/establish minimum standards
10. Standard requirements should be equal (Med Board, etc.)
11. Provider and instructor must assure Board that their course is of value
12. Board sets standards and qualities that instructors/providers must satisfy: Board evaluates competency

INSTRUCTOR CREDENTIALS – February 12, 2016

1. Licensed healthcare provider (or skilled/qualified/expert in their area)
2. Should it only be chiropractors - not if someone is skilled in their area
3. At least 2 or 3 years of experience after college
4. Require a review instructor credentials by the CE Committee
5. Minimum number of years of teaching experience (used to be 5 years but suggest 3 year with minimum of teaching hours per year)
6. In the academic world, a chiropractor has to be licensed for 5 years before they can oversee students

**Board of Chiropractic Examiners
Continuing Education Provider Stakeholder Meeting Notes
Sacramento, CA – November 5, 2015
Southern California - February 12, 2015**

PROVIDER CREDENTIALS – November 5, 2015

1. Should be subject specific/dependent
2. Provider should have to be a D.C. to be a provider but should knowledgeable (too broad currently)
3. Expertise in a given area/or educational background
4. Years of experience should be established
5. What do you have to know to provide that education and licensees get what they need?
6. May not teach directly
7. Get endorsement by peers? Evaluation by other experts
8. Should be required to prove their instructors can actually teach
9. Mentorship program; non-experienced connect with established providers. Then apply for providership, (work for 5 years, 3 years) Receive documentation of hours & work completed, letters of rec.
10. Private entities should/can be on par with schools
11. How will Board fund assessing these entities?
12. Research other states procedures? Borrow processes? (generic results have already been established)

PROVIDER CREDENTIALS – February 12, 2016

1. Have a chiropractor on the staff be able to provide input
2. Caution: the Board would want to make sure the Board is within the law to avoid protectionism. The Board cannot put up any unnecessary barriers to becoming a provider.
3. Should have some teaching experience before applying i.e.: 3 years of experience with at least teaching 48 hours a year to be an apprentice with an existing provider.
4. Have to make sure the Board is not discriminating against CE providers
5. Some level of competence in the chiropractic profession
6. Should a business that isn't chiropractor be a provider of CE or should a qualified instructor of billing be an instructor who works under a provider?
7. The provider should be responsible/aware for what the instructor is instructing.
8. Should provider have some type of medical background related to what they are teaching?
9. Look at providers who are educational institutions versus entrepreneurs or not-for-profit associations (or for profit). There is a difference in the types of providers that the Board should be aware of.

OUTCOME ASSESSMENTS/COURSE EVALUATION – November 5, 2015

2. Bring sample assessment tools already being used
3. Evaluation topics to be included
4. Threshold criteria leading to course review by the Board
5. Determine outcomes of poor course evaluations
6. Vetting of course providers
7. Empower and obligate providers to remove the C.E. from a student who is not participating/listening (consider the size of the group)(*could be liability & complaint issues with this*)
8. Likert scale to measure learning (Participant saying the course is not good is a conflict of interest)
9. 70% is a passing score overall (80% for MPCC)
10. Low score could trigger Board audit
11. Form required for credit
12. Standard for participation: university standards could be used; hours based on attentiveness
13. Post the standards; add the state seal and credentialed logos, etc.
14. If asked, the attendance sheet and forms should match; 100% evaluation completion

OUTCOME ASSESSMENTS/COURSE EVALUATION – February 12, 2016

1. Create a standardized evaluation
2. Evaluate course a month later so see the impact. Try to measure the impact.
3. Research assessment tools we can borrow from
4. Custom design assessments
5. Keep the assessment simple and quick to use; a month later may not be realistic in some instances
6. All programs should have an evaluation. (See sample from Dr. Cymerint.)
7. Evaluations should be sent directly to the Board to prevent interference
8. Make evaluation mandatory for getting credits, must match roster (from Nor Cal focus group)
9. Gary Bustin provided a second evaluation sample
10. Good feedback for provider but too many forms! Provider should be able to decide whether to use an evaluation. Not to prove that they learned or have competency.
11. Is it realistic to expect CE providers to get evaluations to the Board?
15. As part of evaluation form, add required text that says: If you have a problem with this class please contact the Board directly (and include Board contact information).
16. In the past, re-licensing had nothing to do with what they learned.
17. Initiate baby steps to transition from re-licensing to CE
18. Compare CE with other healthcare models/professions

CE PROVIDER APPROVAL: GRANDFATHERING EXISTING PROVIDERS – November 5, 2015

1. Chiropractic
 - a. Colleges
 - b. Associations
2. PACE certified providers
3. Current CE providers that meet to-be-established minimum requirements
4. If Board sets a standard for years that a provider needs to be mentored, then whoever gets grandfathered in should also have a set standard of years.
5. Meet new criteria
6. On a “go forward” basis
7. Must have at least trained or offered a class in the last ____ years, or annually for the last 3 years, or provide minimum number of seminars per year (1 - 4) (seminar being 12 hours min, including documentation, etc.)
8. \$75 for the app fee
9. Hours need to be consistent with the mentorship program/requirements
10. College teaching experience, advanced degrees should be analyzed and considered
11. No complaints on record. Review audits and complaints. Create a minimum as a standard for consideration

CE PROVIDER APPROVAL: GRANDFATHERING EXISTING PROVIDERS – February 12, 2016

1. If providers have been in the program and haven't had problems the Board should look at content and instructor quality to make sure up to par.
2. Make up new standard for providers, any who already meet that standard is ok, those who do not need to brush up
3. Look at how many courses CE providers have given and how recent,
4. Minimum criteria/activity level. Six is one every other month, any form. Minimum 3 hours for example.
5. Providers demonstrate that they can meet new accountability criteria
6. Consider disciplinary actions/clean record

CE PROVIDER STANDARDS: WHAT ELSE SHOULD THE BOARD CONSIDER? – November 5, 2015

1. It may take a couple of years and it is a lengthy process to create new regulations
2. Public opinion would be considered before new regulations
3. Board should be cautious against over-regulating and inadvertently developing monopolies (Nebraska and board of health in 1998)
4. Arizona, Texas, and Wisconsin are example of over regulated Board
5. States that are succeeding: Minnesota
6. Federation of State Boards

CE PROVIDER STANDARDS: WHAT ELSE SHOULD THE BOARD CONSIDER? – February 12, 2016

1. Auditing: Provide opportunity for anonymous CE feedback on Board's website
2. Quality of hours not just quantity. Allow for many options for CE, such as obtaining CE from other professions in healthcare.
3. Protect against inappropriate relationships with sponsorship
4. Analyze the difference between re-licensing hour and CE hours/units
5. Application form is currently a half page. See sample provided by Dr. Cymerint.
6. Course submissions/forms. Avoid unnecessary duplication. Constant changes of criteria are a problem. Sometimes, a CE provider only gets 10 or 11 months because by the time the Board approves CE provider. Two months could have passed and annual renewal is required. Have to apply twice a year sometimes which is more paper and more money. The process is too confusing, make an effective date and last for 12 months. They should stamp it the date of the seminar not when they receive it so that the full 12 months are given.
7. Board of Certification has their whole process online. www.bocatc.org

**Board of Chiropractic Examiners
Continuing Education Provider Stakeholder Meeting Notes
Sacramento, CA – November 5, 2015
Southern California - February 12, 2015**

OTHER COMMENTS FROM EVALUATIONS

1. Very informative! We are close to improving quality of CE in CA. The suggestions are there, now Board should decide how to improve.
2. The whole shift to "possibly" requiring attendees to prove what they learned (Test) is huge. Do you really want to require a passing test grade to get relicensing hours? I think it should be left at the level of requiring course evaluations, standardized, and no more.
3. Great discussion. Thanks for "upping" the profession!!
4. There are many sources of CE hours/unit. The ability to access these which are not reviewed/approved would be helpful. While it was mentioned CE by other Boards is accepted, I did not see clearly defined in the current rules. Mind you I only checked via my phone during the meeting.
5. The profession is becoming (more?) of a profession and I am glad to see the Board is becoming more professional. The transition of the (approach?) from a vocation to a profession is a (not legible) but much and many (not legible) are needed to truly claim our mission.
6. I worry about over regulation.

Agenda Item 5
March 30, 2016

**Review and Discussion Regarding Proposed Outreach Publications;
Possible Recommendation to Full Board**

Purpose of the item

This agenda item has been included to provide the Committee with an opportunity to view a revised draft of the "Guide to the Chiropractic Profession" based on suggestions made at the January Licensing Committee Meeting and Board Meeting.

Background

As part of the Board's Strategic Plan, the Licensing/Continuing Education/Public Relations Committee has sought to create publications for outreach to licensees and applicants. The Committee has created the attached draft for use by individuals interested in pursuing a career in the chiropractic profession as well as those are currently licensed with the Board as a tool to guide them in obtaining and maintaining their chiropractic license.

Next Step

The Licensing/Continuing Education/Public Relations committee will review the attached draft, finalize the verbiage and approve the document for submission to the full Board at the May 2016 board meeting for final approval.

A Guide to the Chiropractic Profession: Getting licensed and staying licensed

**BOARD of
CHIROPRACTIC
EXAMINERS**
STATE OF CALIFORNIA

The profession

Chiropractic is a health care profession that emphasizes the power of one's own body to heal itself without the use of drugs or surgery. The practice of chiropractic focuses on the relationship between structure (primarily the spine) and function (as coordinated by the nervous system), and how that relationship affects one's health.

Its future

Employment of chiropractors is projected to grow 15 percent from 2012 to 2022, faster than the average for all occupations, according to the U.S. Bureau of Labor Statistics. Also, more people are becoming interested in chiropractic care, since chiropractors use nonsurgical methods and do not prescribe drugs.

Getting licensed

If you're interested in a career as a chiropractor in California, you must meet the Board of Chiropractic Examiners' (Board's) strict requirements:

- **Degree.** You must receive a Doctor of Chiropractic (D.C.) degree from a Board-approved college. For a list of these colleges, go to the Board's website, www.chiro.ca.gov. The curriculum includes class time as well as clinical experience hours.
- **NBCE.** Chiropractic students must pass parts I, II, III, IV, and physiotherapy of the National Board of Chiropractic Examiners (NBCE) exam to be eligible to apply for a State license.

- **Application.** Complete the *Application for a Chiropractic License*, which must include your 2-inch-by-2-inch photograph. Be sure to use the *Check Sheet for the Application for a Chiropractic License* to ensure your application packet is complete. Both forms can be found on the Board’s website, www.chiro.ca.gov.
- **Fingerprinting.** Live Scan is a process that scans your fingerprints electronically and is mandatory for applicants who are California residents. Take the *Request for Live Scan Service* form to a Live Scan site for fingerprint scanning. Out-of-state residents must submit fingerprint cards.
- **Background check.** California chiropractic license applicants must disclose all citations/arrests on your record—whether set aside, dismissed, or expunged—in response to any direct question in any questionnaire or application for licensure.
- **Fees.** The standard license application fee is \$100. The reciprocal application fee is \$25. The Live Scan fingerprint services fees are paid directly to the Live Scan agency submitting the print. The fee to submit out-of-state fingerprint cards is \$49.
- **CLPPE.** The California Law and Professional Practice Exam (CLPPE) is administered through computerized testing on a continuous basis. Once the Board determines the licensee applicant is qualified to take the CLPPE, the applicant will be notified by letter.

Out-of-state reciprocal applicants

Refer to the *Application for Reciprocal License to Practice Chiropractic* for a complete list of the requirements to obtain a reciprocal license in California. You can find the application on the Board’s website at www.chiro.ca.gov/forms_pubs/index.shtml.

International applicants

Currently, the Board is unable to issue a license to applicants who do not hold a diploma from a Board-approved chiropractic college. Prior to submitting an *Application for Chiropractic License* to the Board, international applicants are encouraged to contact a California Board-approved chiropractic college for information regarding course work needed to obtain a degree from an approved chiropractic college.

More details regarding requirements can be found in the Board’s Chiropractic Initiative Act and Chiropractic Examiners Rules & Regulations. Both can be found on the Board’s website, www.chiro.ca.gov.

The average time for an initial review of your license application is three to four weeks. At that time, either a letter requesting more information or letter authorizing you to sit for the CLPPE will be sent. The average processing time for an application once received by the Board is three to five months.

Staying licensed

Continuing education

To maintain an active chiropractic license, D.C.s must complete 24 hours of continuing education (CE) per year. Six of the 24 hours are mandatory from the following categories:

- Two hours of Ethics and Law
- Four hours in any one of or combination of the following topics:
 - Chiropractic Adjustive or Manipulation Technique
 - History Taking and Physical Examination Procedures
 - Proper and Ethical Billing and Coding

Of the 24 hours, 18 hours may be completed in general subject categories, four hours of CE credit can be gained by attending a full Board meeting, and a maximum of 12 CE hours may be completed through distance learning.

License renewal

It is your responsibility to keep your license current. When renewing, do it early. Remember to read and review your completed form carefully, check all boxes, and sign the form. Also, be sure you complete all required CE hours prior to submitting the renewal form, and that your check or money order is for the correct amount of \$250. Incomplete renewal forms can cause a license to become delinquent, putting your ability to work at risk.

At this time, license renewals cannot be submitted online. Renewal forms are mailed to the address the Board has on file approximately 60 days prior to your license expiration date. If you did not receive your renewal form, you may print and complete a *Replacement Renewal Form* and mail it to our office.

Please note that the Board is required to deny an application for licensure and to suspend the license/certificate/registration of any applicant or licensee who has outstanding tax obligations due to the Franchise Tax Board (FTB) or the State Board of Equalization (BOE) and appears on either the FTB's or BOE's certified lists of top-500 tax delinquencies more than \$100,000 (Assembly Bill 1424, Perea, Chapter 455, Statutes of 2011).

Show it off

Displaying your license is not only a well-deserved privilege, but also a requirement under section 308 of the Board's Chiropractic Examiners Rules & Regulations. Your license must be clearly visible to consumers at your place of practice, including any certificates issued for satellite offices.

Not worth it

Be aware of and understand the top licensee violations that may result in disciplinary actions. Frequent enforcement violations include:

- Insurance fraud
- Practicing with a nonvalid license
- Sexual misconduct, sexual abuse, or sexual relations with a patient, client, customer, or employee
- Excessive treatment
- Conviction of a crime (including DUI violation)
- False and/or misleading advertising
- Negligence/incompetence

More information regarding possible grounds for discipline can be found in the Board's Chiropractic Initiative Act and Chiropractic Examiners Rules & Regulations. Both can be found on the Board's website, www.chiro.ca.gov.
