Agenda Item 8
May 16, 2017

Ratification of Denied License Applications

Purpose of the item

The Board will review and ratify denied license applications in which an applicant did not appeal the Board's decision.

Action(s) requested

No action requested at this time.

Background

The Board of Chiropractic Examiners denies licensure to applicants who do not meet all statutory and regulatory requirements for a chiropractic license in California. Following a denial of licensure, an applicant has 60-days to appeal the Board's decision. If the applicant does not submit an appeal to the Board, the denial is upheld.

Recommendation(s)

During the period of January 1, 2017 to March 31, 2017, staff has reviewed and confirmed that one (1) applicant did not meet all statutory and regulatory requirements for licensure. The applicant has appealed the decision and the Board is working with the Office of Attorney General on the appeal.

At this time, no ratification is necessary.
